Simplify Workday.
STRENGTHEN ADOPTION.

Legato helps institutions move beyond configuration to intentional user experience, reducing friction and strengthening adoption.

legato strategic consulting

Go-live is a milestone. Adoption is the outcome.

When navigation feels cluttered or dashboards don't reflect how people actually work, confidence drops and value stalls. That's why we offer focused UX services that simplify structure, reduce unnecessary clicks, and help your institution get more from Workday.

Three Ways to Improve Workday Adoption

USER EXPERIENCE STRATEGY WORKSHOP

Cost: $3,500 total (for up to 10 participants)   **Time**: 3 hours

This workshop equips your team to intentionally design a user experience that improves clarity, reduces errors, and increases adoption.

Participants will learn how to:
- Design role-based navigation
- Build intuitive dashboards
- Organize reports and integrations
- Align IT and functional teams
- Apply practical design principles immediately within Workday

What's included:
- 3-hour facilitated virtual workshop
- Framework for organizing reports and integrations
- Post-session resource guide
- Optional follow-up coaching at a reduced rate of $250/hr

Best for: Institutions implementing Workday or post–go-live that want to improve usability, increase adoption, and get more value from their investment.

CUSTOM BUILT DASHBOARDS

Cost: $6,000 (first dashboard) | $5,000 (each additional)   **Time**: 3-4 weeks per dashboard

Benefit from custom, role-based Workday dashboards built to give users a clear view of what matters most and the knowledge your team needs to scale the model across roles.

Stakeholders will benefit from:
- Role-based dashboard design that supports a more consistent user experience
- Fewer clicks to complete tasks
- Reduced dependence on job-aids
- Stronger day-to-day decision support

What's included:
- 2-hour intake session
- Design and build of one custom, role-based dashboard
- Up to three revision cycles
- 60-min knowledge-transfer session
- Workday Navigation resource guide
- Dashboard maintenance notes

Best for: Institutions that need hands-on execution support to deliver a high-impact first dashboard, improve adoption for key roles, and establish a repeatable model their internal team can scale across the institution.

NAVIGATION ASSESSMENT & ENABLEMENT

Cost: $2,500 total   **Time**: 2-3 weeks

Legato evaluates how a specific user group navigates Workday and delivers actionable guidance your team can implement to reduce friction and risk.

Outcomes:
- Clear visibility into navigation friction
- A prioritized improvement plan based on user impact
- A repeatable navigation model that can be applied to other roles
- Increased clarity and consistency across dashboards and menus

What to expect:
- Discovery review of one user group
- Structured navigation analysis using Legato UX framework
- Written assessment with prioritized recommendations
- 3-hour focused coaching session
- Workday Navigation resource guide

Best for: Institutions implementing Workday or post–go-live that have internal configuration capacity and want targeted, expert guidance to improve navigation, strengthen adoption, and create a scalable usability model across roles.

Note: All configuration changes and system updates are executed by the institution.
